PRODUCT DATA SHEET

**General Purpose
Cleaner**

General Purpose Cleaner (GPC)

A unique liquid concentrate product combining high performance chemistry and natural micro-organisms that together offer an effective way of cleaning a wide variety of hard and soft surfaces. The result is a superior, environmentally-preferred solution to a wide range of cleaning applications.

Product Description

General Purpose Cleaner comprises a unique and highly effective modern chemistry with a specialised blend of natural bacterial cultures. The product results in an instant clean followed by the ongoing degradation of organic wastes and soils. The bacteria continuously adapt to their environment by sensing the nature of the soil and secreting a range of hydrolase enzymes and biosurfactants to specifically deal with the problem. This metabolism is essential in breaking down a wide range of organic compounds such as grease, fats, proteins, starch and sugars found in common waste types.

General Purpose Cleaner is a safe and efficient all-in-one product for cleaning, deodorising, and removing stains from hard and soft surfaces.

Application Area

Institutional/Facilities Management	Care homes, retail, public space, pedestrian walkways light industrial cleaning, monuments, ornaments
Washroom/Heads	toilets, urinals, sinks, countertops, tiles, floors/decks
Catering	floors, walls, cabinets, cookers/hoods
Waste Handling	bins, skips
Household	bathrooms, showers, kitchens, bins, deckheads, bulkheads
Soft Surfaces	Carpets, upholstery, bedding

Regulatory

Features and Benefits

Features	<ul style="list-style-type: none"> • Superior fully formulated, high-performance cleaning of all types of hard and soft surfaces • High dilution makes this product very cost effective in use. Single product to cover all washroom cleaning. • Optimised bacterial consortium degrades a wide range of compounds found in common soil types. • Washroom and lavatory applications: effective in control of calcium, uric scale build up and malodour. • Carpets: effective on stain and odour removal from food, wine, vomit, blood, urine, milk, tea and coffee • Odour control through complete bacterial degradation of trapped organic matter
Benefits	<ul style="list-style-type: none"> • Multi-surfactant, solvent-free formulation ensures highly effective cleaning • Reduces greasy build-up in floor drains, grout, and on non-slip flooring and helps address 'Slips & Trips' issues. • Continuous biological cleaning action continues even when the cleaning operation has ceased. • Readily biodegradable • Product is safe for users and the environment • Manufactured in accordance with recognised international standards, ISO 9001

Application/Directions for Use

Hard Surface

Trigger Spray (hard surface):

Dilute GPC product between 1/10-1/20 times. For general purpose cleaning, spray liberally on to the hard surface, wipe to clean, ideally with microfiber cloth and then buff with a fibre cloth for best results.

Mop Bucket (floor):

Add approximately 50ml of product to mop bucket filled with tap water. Mix with mop to ensure even dispersion of product. Mop floors. In order for most effective results fully apply mop water to all service area flooring/decking and floor/deck drains/scuppers. This includes all areas under or behind counters and heavy equipment. Discard mop water into main floor/deck drain/scupper. Refrain from walking on wet surface.

Soft Surface

Spot Cleaning (carpet):

Spot clean with GPC diluted product using a spray bottle and then sponge with hand hot water to remove deep down stains. Hold bottle 15cm from carpet and completely saturate the stain. Allow product to take effect for at least 5 minutes and then blot with a clean cloth or sponge, do not rub as this may spread the stain. Ensure that the cloths or sponges are colour-fast. Repeat treatment as necessary until the stain is removed or no further material appears on the cloth or sponge.

Always test a hidden area of carpet/material to ensure colourfastness.

Machine Cleaning (Carpet):

Add a sufficient amount of to the tank of the cleaning equipment so that when topped-up with clean, hand-hot water (40°C) the tank contains the equivalent of a 1/50 solution.

Use carpet shampoo equipment as normal following manufacturer's instructions.

Bonnet Mopping (Carpets):

Spray a 1/20 solution over an area then bonnet mop in normal way.

Vacuum the carpet when dry.

General Purpose Cleaner can be used on all surfaces that can be cleaned with water. However, as with all cleaning products, it is always wise to test for colour fastness before cleaning an area not cleaned before with this product.

Packaging

2x5litre case

12x750ml trigger spray.
